

# Wastewater Reuse

## First International Conference on Sustainable Urban Wastewater Treatment and Reuse, SUWTR 2005

September 15-16, 2005, Nicosia - Cyprus

Organized by:

National Technical  
University of Athens

University  
of Cyprus

Agricultural Research  
Institute of Cyprus

In collaboration with:

• American University of Beirut, LB • CARTIF, Automation, Robotics and Information and Manufacturing Centre, ES • Chouaib Doukkali University, MA • Istanbul Technical University, TR • Jordan University of Sciences and Technology, JO • Environment Quality Authority, PS • Middle East Technical University, TR

The Conference is organised in the framework of MEDAWARE project, funded by the Euro-Mediterranean Regional Programme for Local Water Management of the European Commission.

## Objective

The Conference aims at addressing the significant issue of sustainable urban wastewater treatment and reuse through the promotion of effective technologies and safe practices. The Conference focuses on urban wastewater treatment technologies and systems (including innovative ones) and on urban wastewater utilization schemes. It aims at stimulating the interest of people in the safe reuse of wastewater with the overall objective being exploiting a supplemental water source, fresh water saving, safe effluent disposal, and the protection of environment and public health. It also aims at supporting the competent authorities and all actors involved in the specific field by providing them new knowledge on various technologies, methods and tools for the promotion of best practices.

The Conference will provide an opportunity to bring together scientists, engineers and professionals from government departments, private institutions, consultants, research, education and training institutions, being a forum for the exchange of the most recent ideas, techniques and experiences in all areas of wastewater management.

“...exploiting a supplemental water source, fresh water saving...”

## Topics

Topics of interest include but are not limited to:

- Integration of wastewater reuse in the overall water resources management
- Technologies for sustainable wastewater treatment
- Quality Standards
- Wastewater Reuse
- Risk assessment and management
- Socio economic issues related to wastewater management
- Relevant Policy Issues
- Training and Capacity Building
- Case Studies

## KeyDates

- 15th May 2005 Deadline for electronic submission of abstracts
- 15th June, 2005 Notification of acceptance of abstracts
- 15th July, 2005 Final manuscript submission
- 31st July, 2005 Hotel registration

## CallforPapers

Authors are invited to submit an extended abstract of maximum two pages in English, including figures and tables (as MS Word file). The abstracts can be submitted electronically via email to [suwtr2005@ucy.ac.cy](mailto:suwtr2005@ucy.ac.cy) no later than May 15th, 2005. Abstracts will be accepted based on quality, originality and relevance to the conference themes. All accepted papers will be published as the symposium proceedings (CD ROM format). Selected papers will be eligible for publication in the peer-reviewed **International Journal of Environment and Pollution** published by Inderscience Enterprises Ltd.

A registration form is available at the website of the conference. We look forward to receiving your paper and we hope to see you actively taking part at our conference. ## ConferenceCountry: Cyprus

Immerse yourself in a culture that draws on Europe, the Middle East, and 9000 years of successive invasions. Crusader castles rub shoulders with ancient vineyards, frescoed monasteries overlook citrus orchards, and sandy, sun-soaked feet tread Roman mosaic floors. Cyprus has been settled since pre-historic times and virtually every Mediterranean civilisation has left a cultural footprint on the island. Its history reads like a Who's Who of European civilisation: Aphrodite chose Paphos as her first port of call after emerging from the sea, St Paul stopped off here on his way to see the Emperor Constantine, Shakespeare's Othello was set in Famagusta and Richard the Lionheart chose to marry his fiancé in Limassol during the crusades. In fact, Cyprus has such a rich history that you can hardly set your foot down without inadvertently stepping on an ancient monument. Today, **Cyprus is a modern country that effortlessly marries European culture with ancient enchantment.** Here you will discover a compact world of alluring beaches and fragrant mountain peaks, vineyards studded with olive trees and ancient ruins that stir the imagination, citrus groves and old stone villages where sweet wine flows as freely as conversations at the local café. A carefree place where a sense of timelessness is magnified by the kindness of its people.
